

heavy-duty

lime off[®]

lime & scale remover

Remove stubborn lime and mineral deposits with this acid based cleaner. High phosphoric acid content coupled with a low foaming surfactant system provides rapid removal of tough mineral buildups. The acid dissolves mineral deposits and the surfactants suspend them to help clean surfaces. Low foaming properties enable this product to be used in warewashing machines as a descaler and lime remover. Not for use on aluminum.

Features	-	Related Benefits
Phosphoric acid based	-	Powerful, effective cleaner
Low foaming properties	-	Ideal for use in warewashing
Versatile	-	Use on mineral deposits anywhere

Areas of Use -

- Restrooms, shower walls, urinals, and sinks
- Steam tables, steam equipment
- Air conditioning systems
- Ice machines, water fountains
- Warewash machines
- Coffee urns, utensils

To Use -

Dishmachine, Steam Table Deliming & Heavy Deposits: Spray or brush onto surface undiluted. Allow to soak a few minutes. Agitate with a brush. Rinse. **Steam Coil Descaling:** Inject undiluted into coil; soak 1/2 hour; flush coil after cleaning. Repeat if necessary. Rinse thoroughly. **For Stainless Steel, Coffee Urns, and Glassware:** Prepare solution of 2 oz per gallon of water. Soak a few minutes. Agitate if necessary. Rinse thoroughly. NOTE: This product will chemically dissolve aluminum. Minimize exposure time and delime only when necessary if coils are made of aluminum. **For applications, see label for complete directions and use only as directed.**

Specification Data

Available Sizes - 4/1G, 5G, 55G	Physical State - Liquid
Color - Green	Fragrance - None Added
Foaming - Low	DOT - Corrosive
USDA - A3	Petroleum Distillates - None
Viscosity - Thin	Acid Content - 27%
Specific Gravity - 1.21	pH (2% solution) - 1.5
