

Insect Killer

Combat wasps, hornets and other flying/nesting insects with this aerosol insecticide. This product provides long distance knockdown and killing power. The delivery system allows you to target pests, knock them down and eliminate them from a safe distance. This product is safe, effective, and easy to use when the label guidelines are followed. The formula is designed to provide fast acting results on target pests. This product's formula provides high dielectric strength to make it safe for use on and around power equipment and lines.
